Given date 09-May-2025	

Nomination Note

I would like to nominate R - Shiny team from BMS account for team award. R - Shiny team has performed exceptionally well throughout the year and received a number of appreciations from client. Some of their achievements in 2024 were CDEx (earlier CDA) application, TDHR (Trail Data Health Reporting) dashboard, Nightingale package (a data visualization library), Python Flask Application Using Generative AI etc. R- Shiny team has not only shown their talent on application, visualization, dashboard, packages development and deployments but also on helping BMS to develop their training program. Team has worked on REvolve training program which will work as a one stop platform for self-training to individuals and help client to improve overall learning experience.For their all-round performance, R-Shiny team has been praised a big way from client, and they have expressed their gratitude for the hard work and commitment demonstrated by each individual in the team.
